IV. 閱讀測驗（每題 3 分，共 15 分）請根據文章，選出一個最恰當的答案。

On September 9, 2023, I was capturing shots at a fantastic historic site when I met a guy in his late twenties. I said hi, and he introduced himself as Andy Brown from Texas, USA. For over two years, he had been residing in this small overseas village situated in a non-native-speaking country with his wife and son.

Curious, I asked Andy how he ended up in this overseas village. He shared that he was a graduate student studying Anthropology at the University of Texas. While looking for a job, he found an overseas website that needed English teachers, applied online, and got a job at The Little Friends in this village.

Andy also mentioned he was having a hard time finishing his master's thesis overseas because he couldn't get the materials he needed. Wondering about his education, I asked if he had a degree in English. He explained, "No, they just wanted someone with a U.S. college degree who speaks English. Surprisingly, they even let me manage the whole school curriculum!"

Hearing Andy's story made me ponder how this non-native-English-speaking country could help its citizens improve their English proficiency. It will be a long shot for sure, but certainly a worthwhile endeavor to explore.
